Description of the Day-Ahead Hourly Ontario Zonal Energy Price Report Fields

Report Field Title	Definition of Report Field Title
Created at	This field indicates the date and time that the report was created. It will be displayed as mmm dd, yyyy hh (24):mm:ss.
For (Valid Dispatch Date)	This field indicates the dispatch date that the DAM calculation engine is optimizing for. It will be displayed as mmm dd, yyyy.

Report Field Title	Definition of Report Field Title
Ontario Zonal Price & Components	<p>This field will display Ontario Zonal Price and its components:</p> <ul style="list-style-type: none"> • Zonal Price • Energy Loss Price • Energy Congestion Price
Day-Ahead Zonal Energy Price (\$/MWh) for hour	This field indicates the zonal price and its components for the indicated hour for energy.
Zonal Price	<p>Zonal Price (Capped) = Energy Reference Price at Reference Location + Energy Loss Price + Energy Congestion Price</p> <p>The Ontario zonal energy price for an hour will be calculated as the sum of the hourly reference price, the load distribution-weighted loss component within the zone, and the load distribution-weighted congestion component within the zone.</p>
Energy Loss Price	<p>The Energy Loss Price (Capped) reflects the cost of transmission losses at a given location relative to the Reference Location. It is calculated by multiplying the Marginal Loss Factor by the Energy Reference Price.</p> <p>The Marginal Loss Factor is derived from the transmission losses incurred from meeting one additional MW of load at the location with one additional MW of supply from the Reference Location.</p>
Energy Congestion Price	The Energy Congestion Price (Capped) is the change in incremental cost at any location on the grid, due to transmission congestion between that location and the Reference Location.
Hour	This field lists out the delivery hour and is denoted as hours 1 to 24 of the day.

Important Items to note when reading the Day-Ahead Commitments Report

A value shown in **red** indicates the value is administered either due to a tools problem in day-ahead or through ex-post administrative pricing.
