

Day-Ahead Security Constraints Report

Help File

Purpose of the Day-Ahead Security Constraints Report

This report contains a list of security constraints as determined by the Day-Ahead Market (DAM) calculation engine run. The Day-Ahead Security Constraints Report provides visibility to market participants on why a particular resource may have received their schedule due to security constraints that were applied by the DAM calculation engine.

Confidentiality Classification

Public

Frequency

Daily after the successful completion and validation of the DAM calculation engine run

Granularity

Hourly

Description of the Day-Ahead Security Constraints Report Fields

Report Field Title	Definition of Report Field Title
--------------------	----------------------------------

Created at	This is the date and time that the Day-Ahead Security Constraints report was created. This will be displayed as mmm dd, yyyy hh24:mm:ss.
------------	--

For	This is the date that the DAM calculation engine is optimizing for. It will be displayed as mmm dd, yyyy.
-----	---

Report Field Title	Definition of Report Field Title
Hour	This is the applicable hour for which the data applies to. The hour must have at least one active constraint for that hour to appear on the Day-Ahead Security Constraints report.
Constraint	This field lists out the security constraint, and it is sorted in ascending order by hour and constraint name.
Constraint Name	This field lists out the name of the constraint name and it is sorted in ascending order by hour and constraint name.
