

## **Report Description**

TITLE: Generator Output by Fuel Type Hourly Report

CONFIDENTIALITY: Public

PURPOSE: This report provides hourly output levels for Ontario's generators by fuel type. It is published at the end of business day and contains data from generators with capacities 20 MW or greater, registered with the IESO.

FREQUENCY: Hourly

UNIT MEASURE: MWh

NOTE: Any telemetry issues at the generator level will impact the aggregate values in this report. Values that contain data from generators experiencing telemetry issues, will be shown in red.
