

## **Report Description**

TITLE:	Generator Output by Fuel Type Monthly Report
CONFIDENTIALITY:	Public
PURPOSE:	This report provides Actual energy production used to meet market demand, grouped by primary fuel type, for all Ontario generators registered as a market participant. This includes all dispatchable, intermittent and self-scheduled generators but does not include embedded solar or wind generation.
FREQUENCY:	Monthly, about 30 days after month end.
OUTPUT:	Actual energy production for all generators (including those less than 20 MW capacity) grouped by their primary fuel type.
UNIT MEASURE:	GWh
